PHASA would like to provide the following information and suggestions to visiting hunters to facilitate the importing and exporting of Firearms through JHB International.

1. There are three (3) different options available for obtaining the Temporary Importation Permits:

1. Yourself as client and foreign hunter
2. Via your Hunting Outfitter
3. Through PHASA.(recommended) We render this service at a cost of \$90 USD (incl. VAT) per application. Payment can be made by credit card on submission of the completed application. Please contact us on <mailto:info@phasa.co.za>

PHASA recommends that where possible the actual temporary import permit is obtained prior to your arrival. When you make use of our service and your application(s) are successful, your Temporary Importation Permits will be available for collection at the SAPS Office on arrival at Johannesburg International Airport.

1. Should you wish to make the application **yourself**:

Complete the temporary firearm import permit application (**SAP520**) in advance if possible and bring it with you. The SAP520 can be completed on arrival at the SAPS Firearm Office. NB! It is important to note that the form must be completed in **black ink** and must remain **unsigned** until the document is finalized in front of the police official issuing the actual permit at the airport. Your hunting outfitter should be able to assist you with a copy of the SAP520 form, or you can download a copy on the PHASA website.

(Please refer to number 3 (a) – (f) to have the necessary documentation ready on arrival).

2. Should you require your **Outfitter** to obtain the temporary import permit prior to your arrival please ensure you provide him with all the necessary documentation. (Please refer to number 3 (a) – (f) for necessary documentation).
3. Should you wish **PHASA** to obtain the temporary import permit prior to your arrival, please send the following certified/notarized documentation to the PHASA Office by registered mail/courier to reach the PHASA Office **at least 25 days prior to your arrival in the RSA. See last page for contact details.**

a. A SAP520 form – completed in black ink

Complete page 2 – E – Natural person's details

Complete page 4 – G – Import/Export details

Complete page 5 – I – Details of firearms and ammunition

Complete page 6 – J – Signature of applicant **or**

Complete page 8 – N – Signature of nominee/authorized person. (Client should give an original written mandate for this if they are not completing the SAP520 themselves).

b. Certified / notarized copy of passport

c. Certified / notarized copy of airline ticket/itinerary

d. Certified / notarized copy of proof of export

This is proof that your firearms have been legally exported from your country of residence. If your country does not have an official export permit the SAPS require a letter from a government agency of your country of residence stating this. For USA citizens the 4457 form is acceptable.

e. Certified / notarized copy of firearm licenses.

The SAPS realizes that some countries, e.g. the US do not issue gun licenses. In this event the USA form 4457 is acceptable for USA citizens.

f. Original Invitation letter of Hunting Outfitter to include:

Letter to be on Outfitter's official letterhead -

Name of person being invited;

Duration of the hunter's stay;

PH's details – name, surname, license number and the province he is licensed in;

Hunting Outfitter Details – same as above;

The physical address(s) and telephone number(s) of the farm(s) where the hunt(s) will take place;

- If you have any of the abovementioned firearms and/or ammunition,
- If any of the supporting documents as required in # 3 (a) – (f) cannot be produced,
- If you are less than 21 years of age,

Your application for a temporary import permit will be refused and your firearms and ammunition will be confiscated and will only be handed back to you when you depart back to your country of residence.

Please take note that only the Central Firearm Registrar in Pretoria, South Africa can authorize special applications for the above restrictions. These applications have to be made in advance and must reach them not later than 3 (three) weeks before arrival. Please contact the PHASA office for more info and assistance.

In Transit Passengers (Transiting South Africa)

It is critical that you check with and confirm with the airline/s involved **before departure** to make sure what their procedure is for the transfer of baggage and/or firearms.

Hunters travelling in a group:

Please note that if only some of the people in a group get temporary importation permits in advance, everyone in the group can expect to be delayed at Johannesburg International Airport for up to 3 hours.

If the airline does transfer your baggage/firearms, and you have booked them through to the final destination, and you stay in the in-transit area and **do not clear South African customs**, then you do not have to go through the temporary import process.

If your airline company will **not** transfer your baggage/guns to your connecting airline/flight, then you must collect your baggage/firearm/s and go through the entire entry process. If this is the case, the South African limitations, requirements, etc. will apply.

This also applies if you overnight in South Africa before flying on to your country of destination.
